# Current open positions for students and graduates

---

This is the new edition of the Airbus Newsletter focusing on career opportunities in Airbus.

Information about open graduate positions and early career entry programmes can be found on our career website at [www.airbus.com/work](http://www.airbus.com/work). Most roles can be accessed by clicking the “Apply Now” button except where stated otherwise.

The positions listed for Airbus will be visible on the system as long as they are available. Once a position has been filled the reference and job description will disappear, so we encourage you to be proactive in applying.

# EADS Trainee Programme PROGRESS

PROGRESS is a two-year programme structured around Technical and Support Function activities. The Technical stream includes fields like Engineering, Programmes, Supply Chain, IT, Quality, Customer Services or Manufacturing (around 70% of positions) while the Support Function stream is focused on functional areas such as Procurement, Finance, Human Resources, Strategy, Business Development or Marketing and Sales (around 30% of positions). In both streams you will work on challenging projects and tasks. On completion of the programme, you'll have the opportunity to transfer to another country and/or division.

Throughout the programme you will gain a general overview of the product portfolio as well as essential insights into the operations of your chosen function. In addition, through working on cross-functional, cross-country and/or cross-divisional business projects you will increase your knowledge and networking opportunities.

Through workshops and shop-floor experience, one-to-one training and networking events you will gain a thorough understanding of EADS and valuable professional contacts worldwide. You will also benefit from the support of a Senior Manager as a personal mentor who will provide valuable guidance throughout the programme.

## Requirements

PROGRESS is designed for graduates and professionals with a maximum of three years professional experience (including internships longer than 6 months) and a minimum of twelve months experience abroad.

You should also fulfil the following requirements:

- English fluency - any additional language skills are a plus
- Excellent academic background
- Very good communication skills
- Strong team player
- Creative and innovative flair
- Desire for international mobility
- Passion for engineering and technology

There is no restriction regarding age or nationality. PROGRESS is open for all the international (EU and non-EU) candidates within any age range, as long as they fulfil the mentioned above criteria.

**The application period for PROGRESS 2013 is now open. You can submit your application until 31st January 2013.** The programme will start in September.
