Writing a successful Technical Plan
for the Arts and Humanities Research Council

The Research Office, the University Library and the Communication, Culture and Citizenship Research Challenge invite you to hear **University Research Data Manager, Dr Gareth Cole** explain how to write a successful Technical Plan.

Learn…

- **What is a Technical Plan**
- **How to write a successful plan**
- **What the AHRC look for**
- **What help is available at Loughborough University**

AHRC Technical Plan reviewer**, Dr Richard Bibb,** from Loughborough Design School, will give a reviewer's perspective.

The session will examine issues such as storage, back up, ethical concerns, sharing, preservation, and sustainability. By the end you will understand why you need to write a Technical Plan, know what you should include in it, and how the AHRC reviews your plan. Examples of plans with reviewers' comments will be available.

Who should attend? Researchers from any discipline, who are interested in applying to the AHRC and in the principles of writing a successful Technical Plan.

WHEN: Wednesday 23rd September 2015 at 12.00 – 13.00

WHERE: Stewart Mason Building SMB.02

This event is FREE and lunch will be provided. Places are limited so please book through the [Online Store].
