

Pedagogy, policy and support: taking lecture capture and screencasting to the next level

First Floor, Keith Green Building, Loughborough University

Wednesday 3rd July 2013

09.15 Coffee, pastries and registration

09.45 Welcome Address

Professor Morag Bell, Pro Vice Chancellor (Teaching), Loughborough University

Charles Shields, Head of E-learning, Teaching Centre, Loughborough University

10.00 Keynote 1: *Lectures, lecture capture and thinking*

Steve Rowett, E-learning Developments Team Leader, University College London

In this presentation Steve will pose questions for discussion during the day. Thinking about the role of lectures in teaching he will outline the dilemma of lecture capture technologies which can both reinforce a passive learning experience and also enable students to develop more active learning strategies.

10.45 Keynote 2: *Lecture capture: the student perspective*

Over the last year, the Loughborough Students' Union Executive, and the VP Education in particular, have been vocal in seeking institution-wide use of lecture capture at Loughborough. In this session, Lazar will present the student perspective on lecture capture, within the wider context of generally increasing student expectations.

Lazar Zindovic, VP Education, Loughborough Students' Union

11.15 Coffee

11.30 Parallel 1

<p><i>Comparing the Use of Video, Audio, Pre-recorded and Captured Lectures</i></p> <p>This session will consider the pros and cons of using different types of lecture capture in terms of their practicality, effectiveness and pedagogical value. Half the session will examine the outcomes of a series of evaluative projects conducted at Loughborough University, with the remainder of the session devoted to attendees sharing and comparing their own experiences.</p> <p>Dr Marcus Collins, Senior Lecturer in Cultural History, Loughborough University</p>	<p><i>Lecture Capture across multiple international campuses</i></p> <p>An overview of lecture capture across Nottingham's UK, China and Malaysia Campuses, plus managing a diverse fleet of capture devices, interfaces and operating systems.</p> <p>Ian Pearshouse, Service Owner, Lecture Capture, University of Nottingham</p>
--	--

12.15 Parallel 2

<p><i>Supporting distance learners on an MSc programme with lecture capture</i></p> <p>This presentation will cover the experience of large-scale use of lecture capture to support several hundred students on an MSc programme within the School of Electrical, Electronic and Systems Engineering at Loughborough.</p> <p>Dr Sheryl Williams, Online Learning Support Officer, Loughborough University</p>	<p><i>Growing an architecture for Lecture Capture at Loughborough</i></p> <p>A journey through the technical infrastructure of lecture capture at Loughborough University, calling at hardware, software, operating systems and virtualisation along the way, as well as taking a look at some options for the future.</p> <p>Richard Goodman, E-learning Systems Team Manager, Loughborough University</p>
--	--

13.00 Lunch and networking

13.45 Parallel 3

<p><i>Camtasia for Teaching</i></p> <p>Techsmith Camtasia has been on the market for almost 20 years, originally as a simple screen capture programme and with rather more sophisticated capabilities including video editing.</p> <p>This short presentation will introduce Camtasia, demonstrate its functionality, and suggest / show different ways in which it can be used for teaching.</p> <p>Geoff Hodgson, Programme Director, BSc (Hons) Commercial Management and Quantity Surveying, Loughborough University</p>	<p><i>Active learning with Echo 360 and Lecture Tools</i></p> <p>Echo 360, which underpins the ReVIEW campus lecture capture service at Loughborough, is one of the two main players in the UK lecture capture solution market. This session will present an overview of the core lecture capture capabilities of Echo 360, but focusing on how the platform is being developed to promote 'active learning' particularly through the integration of the LectureTools service.</p> <p>Ian Nickson, International Inside Sales, Echo 360</p>
---	--

14.30 Parallel 4

<p><i>Pushing the boundaries: non-standard uses of lecture capture</i></p> <p>One of the features of the ReVIEW lecture capture service at Loughborough is the way it has been adopted by support services for non-academic purposes. This session will present examples of this but also look at academic scenarios which test the capabilities of lecture capture systems.</p> <p>Charles Shields, Head of E-learning, Loughborough University</p>	<p><i>Lecture capture and blended learning with Panopto</i></p> <p>Panopto is the other main player in the UK lecture capture market and underpins the lecture capture service at institutions such as Bath and Newcastle. This presentation will cover the system's current features and the roadmap for further developments.</p> <p>Ravi Khakhar and Rebecca Avery, Panopto UK</p>
---	--

15.15 Coffee

15.30 Plenary and panel discussion:

What does the next level look like? How do we get there?

16.00 Close
